# **EFFECTS OF DRUGS ON PERFORMANCE BEHAVIOR IN DUID CASES**

*SOFT Continuing Education Committee and  
SOFT/AAFS Drugs & Driving Committee Seminar*

**MAY 12-13, 2009**

## **Workshop Overview**

The workshop is designed to have a great deal of discussion and interaction on driving performance behavior and the interpretive issues associated with it in DUID cases. Preference will be given to those whose current job duties involve expert testimony on the effects of drugs on driving.

Topics include:

1. Review of pharmacological/behavioral effects of the major drug classes:
  - ♦ Stimulants
  - ♦ Opioids
  - ♦ Marijuana
  - ♦ Depressants
  - ♦ Polypharmacy
2. Discussions on the interpretive issues in real case examples.
